

Take.Off messenger

A trendy shoulder bag for notebooks (up to 15.4") and more

The trendy messenger bag, the Take.Off, unites design and functionality perfectly.

The generously proportioned main compartment protects notebooks with High Density Foam, and also offers plenty of further space for documents. This compartment can be enlarged using the zip to hold even large folders. The perfectly integrated workstation with its detachable key chain keeps pens, business cards, and other utilities in order, whilst further mobile equipment can easily be stored in the zipped section of the cover flap. Mobile phones and mp3 players are easily accessible in the specially designed multimedia pockets, and a zipped pocket on the rear provides additional storage which is hidden from plain sight.

The adjustable shoulder strap with its comfortable shoulder pads ensures easy transportation.

Available in black or dark brown.
